

New Scia 2017

With regard to construction work, in order to avoid the huge plague unauthorized building they were made by the Italian State certain administrative acts designed to regulate the works on real estate and their correct construction. In addition to the Ordinary and the Super DIA DIA, some Italian regions apply the SCIA. Signaling Start of Activity Certified (SCIA) allows you to start its work immediately and without having to wait for the expiration of any term, unlike the DIA which provided the time limit of thirty days before you can start the task. It was introduced by Article 49, paragraph 4-bis of Law Decree 31st May 2010 n. 78, converted with amendments by Law 30th July 2010 n. 122, which governs the reporting of Certified Home Activities (SCIA), replacing entirely the discipline of Start of Activity Declaration (DIA) contained in Article 19 of Law No 7th August 1990. 241, with the aim of speeding up and simplifying from previous requirements. The regulation expressly requires the reporting of Certified Home Activities are attached, among other things, enabled the technical certifications, with the design documents necessary to enable subsequent checks by the competence. Pursuant to paragraph 4b of Article 49 of Law No. 122 of 2010, the expressions "Reporting Certified Home Activities" and "SCIA" replace, respectively, those of "Start Activity Statement" and "DIA", "wherever recourse also as part of a wider expression", both in government regulations in those regions. By **1st January 2017** promises to the operation of a new Scia only simplified. This is what finally approved by the Cabinet, the decree implementing the Reform of Public Administration, Law of 7th August 2015, n. 124 of the Minister Maria Anna Madia. Finally from next year the demand, the same all over the country, it will be submitted electronically. The simplification of the New Trail building will also allow citizens to no longer having to produce documents already in the possession of the PA.
